## About Me

I'm Rohit Kumar Sah, a passionate web developer dedicated to creating seamless and user-friendly web applications. With a strong foundation in both front-end and back-end development, I thrive on solving complex problems and continuously learning new technologies. My goal is to build efficient and scalable solutions that provide exceptional user experiences.

## Professional Experience

### Makeup Artist App

Description: A mobile app connecting professional makeup artists with clients. The app allows artists to showcase their portfolios, connect with clients, and stay updated on trends. Clients can book services, receive product recommendations, and access tutorials.

### Technologies:

Android Studio, Java, Firebase.

### Role:

Developed the app's front-end and back-end using Java and Firebase, and collaborated on UI/UX design.

### Outcome:

Delivered a functional prototype praised for its user-friendly interface and comprehensive features.

### Personal Portfolio

- Designed and developed an interactive portfolio website featuring a collection of projects, both static and dynamic websites, and certificates. This platform showcases my problem-solving abilities, creative design, and proficiency in front-end development.
- Technologies: HTML, CSS, JavaScript

## Achievements

- Certificates in Front-End Web developer from Coding Ninjas.
- Proficient in typing with a speed of 40-45 words per minute.
